GRAF SKATES/ THE COMPANY

EN

ICE SKATES FROM SWISS PRODUCTION

Graf & Co. was established in Kreuzlingen in 1921 by Karl Graf's grandfather. Graf then produced a wide range of all kinds of sport shoes: from soccer, -bike, -hiking, up to tennis boots, etc. In 1937 the first ice skates were introduced and since 1974 GRAF became specialists in ice hockey and figure skating boots. 85% of the skates produced by GRAF SKATES AG in Switzerland are sold worldwide. Main markets amongst others are Russia, Scandinavia and Germany. For the Japanese market ice skates are produced on particular lasts (shape of foot).

EXPENSIVE PRODUCTION

A high-quality ice skate is composed of many individual parts built together in a very complex way. Every stage of production from cutting out the boots, sewing, lasting, gluing the sole and assembling the blades requires professionalism and specialized knowledge. It is only possible to produce such high quality goods at competitive prices with the investment of such special machines as GRAF SKATES AG has. For the development of new models and technology, the input of customers and direct contacts with consumers are of high value. New products originate from customers inquiries, needs and co-creations by consumers. The testing of new materials is of great significance.

QUALITY COMES TO THE FORE

All employees of the Graf Company in Kreuzlingen, Switzerland work everyday to achieve the level of quality which GRAF is known for.

DE

SCHLITTSCHUHE AUS SCHWEIZER PRODUKTION

Gegründet wurde das Unternehmen Graf & Co. 1921 im thurgauischen Kreuzlingen durch den Grossvater von Karl Graf. Die Sportschuhfabrik stellte ein breites Sortiment von Sportschuhen her: vom Fussball-, Rad-, Wander-, Tennis bis hin zum Schwingerschuh. Ab 1937 wurden Schlittschuhe ins Sortiment aufgenommen und ab 1974 begann die Spezialisierung auf Eishockey- und Kunstlaufschuhe. GRAF SKATES AG, Kreuzlingen exportiert rund 85% der Produktion weltweit. Hauptmärkte sind u.a. Russland, Skandinavien und Deutschland. Für den japanischen Markt werden Schlittschuhe mit speziellen Leisten (Fussformen) hergestellt.

AUFWENDIGE PRODUKTION

Ein hochwertiger Schlittschuh besteht aus sehr vielen Einzelteilen. Dementsprechend aufwendig ist die Produktion. Vom Ausstanzen über das Nähen, das Zwicken, das Aufkleben der Sohle bis hin zur Montage der Kufen wird der Schlittschuh in maschineller Handarbeit gefertigt. Nur durch gezielte Investitionen in Spezialmaschinen kann eine derart arbeits- und materialintensive Produktion zu marktgerechten Preisen beibehalten werden. Für die Entwicklung neuer Modelle und Technologien haben die Inputs von Kunden und direkte Kontakte mit Konsumenten einen hohen Stellenwert. Aus Nachfrage, Kundenbedürfnissen und Co-Kreation entstehen neue Produkte. Grosse Bedeutung wird dabei dem Testen von neuen Materialien beigemessen.

QUALITÄT STEHT IM VORDERGRUND

Dafür setzen sich täglich alle Mitarbeiterinnen und Mitarbeiter von GRAF in Kreuzlingen, Schweiz ein.

FR

DES PATINS PRODUITS EN SUISSE

L'entreprise Graf & Co. a été fondée en 1921 dans la cité thurgovienne de Kreuzlingen par le grand-père de Karl Graf. La fabrique de chaussures de sport proposait un large assortiment: chaussures de football, de cyclisme, de tennis, de randonnée, etc. Dès 1937, les patins ont rejoint cette panoplie et, dès 1974, l'entreprise s'est spécialisée dans les patins de hockey et de patinage artistique. GRAF SKATES SA à Kreuzlingen exporte environ 85% de sa production à travers le monde. Les marchés principaux se trouvent en Russie, en Scandinavie et en Allemagne. Pour le marché japonais, des patins avec spéciaux formes de pieds sont fabriqués.

COÛTEUSE PRODUCTION

Un patin de haute qualité exige beaucoup d'attention sur les détails. Ce qui signifie des coûts de production élevés. De la découpe à la couture, le serrage, le collage des semelles au montage des lames, les patins sont minutieusement terminés à la main. C'est seulement grâce à des investissements dans des machines spécialisées qu'une telle production intensive peut assurer un rapport qualité-prix compétitif pour le marché. Pour le développement de nouveaux modèles et de nouvelles technologies, les impressions et remarques des clients, de même que le contact direct avec les consommateurs sont essentiels. Les nouveaux produits résultent de la demande et des besoins de la clientèle. Un très grand intérêt est donné aux tests effectués sur les matériaux.

LA QUALITÉ D'ABORD

Toutes les collaboratrices et tous les collaborateurs de l'entreprise GRAF à Kreuzlingen en Suisse travaillent quotidiennement en ce sens.

FIT COMES FIRST

SPECIAL ORDER/

This is our goal, because with personalized skates you can jump higher, turn more precise, train longer and get a better support. GRAF special order is worthwhile for skaters who want precisely fitted skates or are having trouble with stock skates. These skates are exclusively produced and handcrafted in Switzerland.

Das ist unser Ziel, weil man mit besseren Schlittschuhen höher springen, präziser drehen, länger trainieren kann und einen besseren Halt hat. Eine GRAF Extraanfertigung lohnt sich für Läufer, die einen passgenauen Schlittschuh nach Wunsch möchten oder mit Schlittschuhen aus dem Handel Beschwerden haben. Diese Schlittschuhe werden exklusiv in der Schweiz hergestellt und bearbeitet.

SOME POSSIBILITIES:

- ONLY BOOTS, ALTERED BLADES
- SPECIAL WIDTH, SKATES ACCORDING TO TRACINGS, HEAT MOLDING
- EXTRA-STIFF /SOFT, SPECIAL TONGUES, MATERIAL ADDITION/ CHANGING
- REACTIVATION OF OUTDATED MODELS, SOLE PARTS OF OTHER MODELS
- DIFFERENT SIZES L/R, HEEL PADDING AND MANY MORE

Many athletes count on the quality of GRAF special orders. You can improve your performance, too! Ask your GRAF dealer or send us an email to support@grafskates.ch

Viele Profis zählen auf die Qualität von GRAF Extraanfertigungen, verbessere auch du deine Leistung! Frage deinen GRAF Händler oder schreibe uns eine Mail auf support@grafskates.ch

ANATOMY OF THE GRAF SKATE/

KNOWN FIGURE SKATING CHAMPIONS HAVE CHOSEN GRAF SKATES.

IF YOU ARE AIMING FOR SUCCESS, YOUR FOOTWEAR SHOULD HELP YOU SUCCEED. GRAF HAS BEEN OFFERING CUTTING-EDGE DESIGNS AND MATERIALS SINCE 1921, ENABLING YOU SO TO LEAVE A MARK WITH YOUR PERFORMANCE.

MAXIMUM COMFORT FOR MAXIMUM PERFORMANCE.

- 1 PADDED TONGUE
- 2 TONGUE PADDING
- 3 UPPER PADDING 3D
- 4 HIGH QUALITY MICROFIBRE LINING (1,2 mm)
- 5 TONGUE PADDING IN BETWEEN
- 6 TONGUE COVER STRIPE
- 7 HEEL COUNTER REINFORCEMENT & PADDING
- 8 ANKLE PADDING
- 9 FOOTBED
- 10 INSOLE
- 11 OUTSOLE
- 12 GENUINE LEATHER UPPER
- 13 TOE REINFORCEMENT

BLADE ASSEMBLY/

FOR THE ASSEMBLY OF THE ICE BLADE FOLLOW THE INSTRUCTIONS BELOW.

IT IS RECOMMENDED THAT THE ASSEMBLY IS CARRIED OUT BY SPECIALIZED PERSONNEL.

1. PLACE THE BLADE AND MARK WITH A PEN THE POSITION OF THE HOLES.

2. DRILL HOLES AT THE MARKED POINTS WITH A TIP 2.5 MM. THE HOLES IN THE HEEL MUST HAVE A DEPTH OF 15 MM, IN THE PLANTAR HOLES MUST BE "BYSTANDERS".

NEW GRAF™ ULTRALIGHT OUTSOLE/

THE NEW GRAF ULTRALIGHT-OUTSOLE IS THE RESULT OF YEARS OF EXPERIENCE IN PRODUCTION OF SKATES AND CLOSE COOPERATION WITH FIGURE SKATING EXPERTS AND ATHLETES. IT OFFERS ALL THE ADVANTAGES OF A CLASSIC GRAF OUTSOLE WITH 26% LOSS OF WEIGHT. THE MOST IMPORTANT IMPROVEMENT IS THE SRPP SURFACE, WHICH IS ALSO USED ON HOCKEY SKATES. IT IS EXTREMELY LIGHTWEIGHT, ROBUST AND OFFERS A FLAT CONTACT SURFACE FOR EASY BLADE MOUNTING. OUR TAPERED EDGE PROFILE ALLOWS EVEN MORE CURVE INCLINATION WITHOUT TOUCHING THE ICE.

THE ULTRALIGHT-OUTSOLE WILL BE USED AS A STANDARD ON ALL TOP-LEVEL MODELS AND RICHMOND SPECIAL AND CAN BE ORDERED WITH GRAF CUSTOM ORDERS.
